

* Mildred "Millie" Mick
Salina
KWBA Hall of Fame
Service - 2000

Millie on the local level has been a league president, vice president, secretary-treasurer on her leagues for many years. Serving on all committees.

Millie is also a good bowler, carrying a 181 average and a high series of 673. Millie is a very important part of the Salina association; she is a diligent worker and is there when you need her. She is competitive bowler, and she always does her best. Her love and enjoyment of the game does not rest with the final score. She is also a loyal friend to her bowling buddies. She has been a constant companion to former state president Bonnie Hodgson. She bakes pies for the local association to raffle and donates her time and energy. They are thankful to have her in their association.

On the state level, she has been the artist for many of our trading pins and other pins. We would give her a rough idea and the next day, she would have several sketches for the awards committee. We can also vouch for her pie making abilities. She always bakes pies for our Friday night dinner during the fall board meeting. Millie has chaired the BVL committees for many years. She also is our sound technician, recording our board meetings can be very challenging. She also has a great sense of humor and can really tell some good stories.
